***Election/Restrictions***

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

Group I: Claim 1 drawn to a placard having indicia indicating a user to be handicapped, a user name, duration of placard validity and human cognizable image of the user classified in Class and subclass 40/340.

Group II: Claim 2 drawn to a speed limit citation classified in Class and subclass 340/936.

Group III: Claim 3 drawn to a parking citation classified in Class and subclass 194/904.

Group IV: Claim 4 drawn to subject matter classified in Class/subclass 705/50 and Class/subclass 283/73.

Group V: Claims 5-7 drawn to a subject matter classified in Class/subclass 382/115 and 235/275.

2. The inventions of Groups I and II are distinct from the each other because of the following reasons:

Inventions I - V are unrelated to each other. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant, each invention requires a separate and unrelated utility with each other. For example, invention I requires a placard having indicia indicating a user to be handicapped, a user name, duration of placard validity and human cognizable image while invention II requires a speed limit citation. These two utilities required by each invention I and II are different and unrelated to each other invention.

Art Unit: 2621

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, and required the different field of search for each of these inventions, restriction for examination purposes as indicated is proper.

3. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
